

Study-Space Student Evaluation Data

Spring 2016, PA20024 – 60% of cohort used the app

N = 24	
Percentage of students who agree with the statements	
85%	The app was useful in supporting my learning
60%	The app increased feedback
85%	The app is a good way for students to help each other
95%	The app facilitated a community of students and academics working together
85%	The posts by academics were important
80%	The app was an improvement to the unit
60%	The app was a compliment to the materials on Moodle
80%	I would like to use the app for other units
What were the most useful things about the app in terms of your learning on the unit?	
Both students and lecturers could post in the same place	
-when lecturers posted some important notes	
When people asked a question the answers helped my knowledge and I could also try to answer questions which helped me to learn more	
Getting answers from students AND staff.	
Aided my revision	
Lecturers' responses	
Was able to ask questions and get help from other students. Lecturers could intervene if peers were wrong.	
The lecturers answering any unanswered questions	
A causal way to communicate and share ideas with the lecturers and other students; rather than writing an email asking about some simple questions	
You could ask any question and in most cases it would be answered. It was useful in this way but also I'm quite shy so probably wouldn't have the confidence to ask the lecturers myself in case it was a stupid question, so this enabled me to get answers fast and without any worries.	
It consolidated my knowledge by me helping other people	
It was useful to gain lecturer feedback on some of the questions	
very quick Q and A system; feedback from both academics and students	
Lectures replying to comments	
Being able to ask other students but knowing that it is checked by academics so you won't be told the wrong thing.	
Easy to ask questions	

Autumn 2016, PL30548 – 95% of cohort used the app

N = 29	
Percentage of students who agree with the statements	
83%	The app was useful in supporting my learning
86%	The app improved the quality of teaching and learning of the unit
79%	The app was a good way for students to help each other
86%	The app facilitated a community of students and academics working together
83%	The app was a compliment to the materials on Moodle
66%	I would like to use the app for other units

Autumn 2016, PL50435 – 89% of cohort used the app

N=20	
Percentage of students who agree with the statements	
65%	The app was useful in supporting my learning
70%	The app improved the quality of teaching and learning of the unit
70%	The app was a good way for students to help each other
50%	The app facilitated a community of students and academics working together
80%	The app was a compliment to the materials on Moodle
85%	I would like to use the app for other units
